

## Kids can Help Change Lives! One coin at a time!

Coins can add up to help families  
staying at the Gift of Life Family House!

### How it works:

Collecting change is quick, easy and fun for all ages! For entire schools or individual classrooms, participation in the Gift of Life Family House **Help Change Lives** program is beneficial because it helps students learn about good citizenship and the importance of helping others in a time of need. **Most importantly, the kids will be helping other kids (and their families)!**

### What to do:

We will provide **Help Change Lives** stickers for the students to wear and to decorate their own personal coin containers as well as **Help Change Lives** posters to promote this fundraising program in your classroom or school. Encourage your students' creativity by letting them create their own containers and a promotional campaign!

The **Help Change Lives** fundraising program can be incorporated into many different areas in the classroom's curriculum. Or, have fun with it by having the classes compete against each other! Or, make it a school-wide community event!

You choose how long you want students to participate in the **Help Change Lives** fundraising program. It can run a week or a month or even a semester. Whatever works best for the classroom or school! We would be happy to come to your school to make a presentation about the Gift of Life Donor Program and the importance of organ and tissue donation and how the Gift of Life Family House will help transplant families in the tri-state area.

## Ways to get students involved in helping other kids and their families:

- Hold a contest among several classes or the entire school. The first place class gets a pizza or a sundae party!
- Turn coin collecting into a math lesson. \$5 is 500 pennies or 50 dimes or 20 quarters, etc. If everyone donated \$5, how much would the entire class collect?, etc!
- Turn the topic into a biology/human anatomy lesson. Have the students learn about the importance of organ and tissue donation. Perhaps a teacher's or a student's family member has been an organ recipient. Make it personal! We would be happy to send someone out to talk to your class or school.
- Place the sticker on a large container and pass it around at one of your school's sporting events!

Contact Sara Cohen at (215) 557-8090, Ext. 1312  
or [info@GiftofLifeFamilyHouse.org](mailto:info@GiftofLifeFamilyHouse.org) for **Help  
Change Lives** materials and your class or school  
will be on its way to helping a great cause...the  
Gift of Life Family House.
